

We ask  
'big' questions!

We investigate  
and research to  
find answers!

We use scientific  
vocabulary in our  
explanations!

We work together to  
learn new things and  
make discoveries!

We are engaged  
and curious!

We use Science to build  
on our knowledge and  
understanding of the  
world around us!

At HHJS we:

At Hampton Hill Junior School we are committed to fostering an enthusiasm for and enjoyment of science. We aim to enable all our pupils to ask and answer scientific questions about the world around them and through this, develop a sense of excitement and curiosity about the natural phenomena that they encounter in their everyday lives. We seek to ensure that all children are equipped with the scientific knowledge and skills to enable them to become responsible and respectful global citizens.

# Our Vision
