Maths The Year Ahead...

The following information booklet details the general plan for teaching and learning in the coming academic year at HHJS. We follow the White Rose Scheme of learning which is attached for your information. I have also included some extra resources you may find useful at home for pre-teaching or consolidation.

** These booklets are available on the website for all KS1 and 2 year groups across our federation. For more information speak to Miss Duffy (year 4 @HHJS).

Useful resources

White Rose's **free workbooks** align with the topics we will cover.

- Available for **all topics** across the year.

4/6 Add & subtract

Line up digits from right to left

Example 1: Add 4735 and 386

Example 2: Subtract 637 from 2476

4/7 Estimate a calculation

Round off each number so that the calculation is easy to do

Example 1: 644 x 11 To make it easy use:

600x11=6600 or 600x10 =6000

Example 2: 503.926 + 709.328

To make it easy use:

500 + 700 = 1200

Example 3: Half of 51.4328963

To make it easy use:

Half of 50 = 25

Example 3: 806 - 209 To make it easy use:

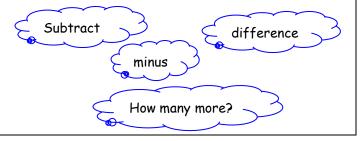

800 - 200 = 600

4/8 Addition & subtraction problems (Based upon 4/6)

Words associated with subtraction:

4/9 Multiplication tables

12	12	24	36	48	60	72	84	96	108	120	132	144

Remember:

 $7 \times 8 = 56$ $8 \times 7 = 56$ $56 \div 7 = 8$ $56 \div 8 = 7$

4/10 Factor pairs

The number 12 can be made from these factor pairs

1 x 12 2 x 6	From these factor pairs we
3 x 4	can see that
4 x 3	the factors of
6 x 2	12 are: 1, 2, 3,
12 x 1	4, 6, 12

4/11 Multiply by a single digit number

Example: 342×7

3 4 2	3 4 2	300 × 7 = 2100
7 ×	2	40 x 7 = 280
2394	2394	$\frac{2 \times 7}{342 \times 7} = \frac{14}{2394}$

4/12 Connections between 2 sums

• Look for connections between the 2 sums

Example: We know 342 x 7 = 2394 (See above)
$$\begin{pmatrix}
x2 & x2 \\
x2 & x2
\end{pmatrix}$$
So we also know $684 \times 7 = 4788$

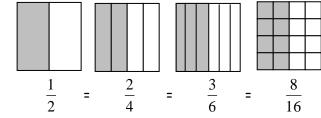

Example: We know
$$342 \times 7 = 2394$$
 (See above) +1

So we also know $342 \times 8 = 2394 + (342 \times 1) = 2736$

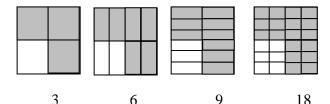

4/13 Common equivalent fractions

• The same fraction can be expressed in different ways

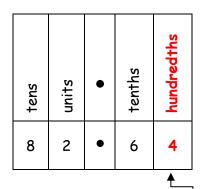

ALL THESE ARE
$$\frac{1}{2}$$

ALL THESE ARE
$$\frac{3}{4}$$

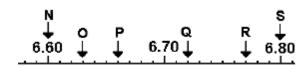

4/14 Hundredths

- This represents 4 hundredths = $\frac{4}{100}$
- To find a hundredth of an object or quantity you divide by 100

4/14 Counting in hundredths (continued)

O = 6.63

$$P = 6.66$$

$$Q = 6.72$$

$$R = 6.77$$

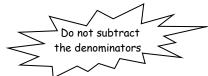

4/15 Add & subtract fractions

To add and subtract fractions

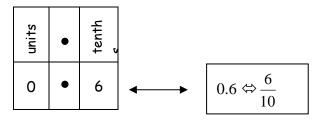

When the denominators are the same

$$\frac{5}{8} + \frac{3}{8} = \frac{8}{8} = 1$$
Do not add the denominators

$$\frac{5}{8} - \frac{1}{8} = \frac{4}{8}$$

4/16 Decimal equivalents

units	•	tenths	hundredths		
0	•	0	3		$0.03 \Leftrightarrow \frac{3}{100}$

units	•	tenths	hundredths		
0	•	6	3		$0.63 \Leftrightarrow \frac{63}{100}$

4/16 Decimal equivalents

Others to learn are:

$$\frac{1}{4} = 0.25$$
 $\frac{1}{2} = 0.5$ $\frac{3}{4} = 0.75$

$$\frac{3}{4}$$
 = 0.75

4/17 Effect of dividing by 10 and 100

To divide by 10, move each digit one place to the right

e.g.
$$35 \div 10 = 3.5$$

Tens	Units	•	tenths
3 <	5 \	•	
	3	•	5

• To divide by 100, move each digit 2 places to the <u>right</u>

e.g.
$$35 \div 100 = 0.35$$

(we add a zero to show there are no whole numbers)

Tens	Units	•	tenths	hundredths
3 —	5_	•		
	0	•	3	5

4/18 Round decimals to nearest whole

The Rules:

If the digit behind the decimal point is **LESS** THAN 5, the number is rounded DOWN to the next whole number

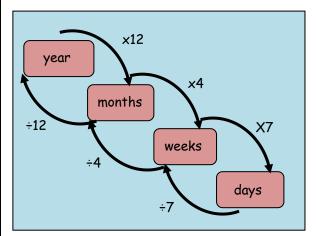

6.4 becomes rounded to 6 Example:

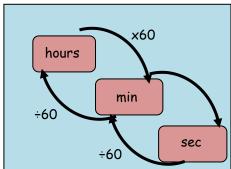

If the digit behind the decimal point is 5 OR MORE, the number is rounded **UP** to the next whole number

6.5 becomes rounded to 7 Example: 6.8 becomes rounded to 7

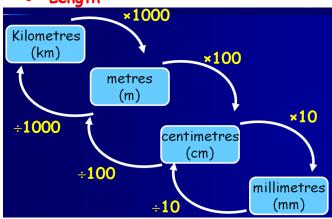

4/19 Convert between units of measure

Time

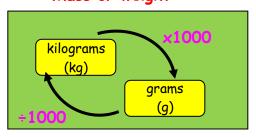

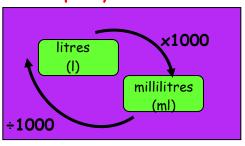

Length

• Mass or weight

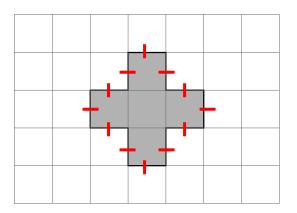

• Capacity or volume

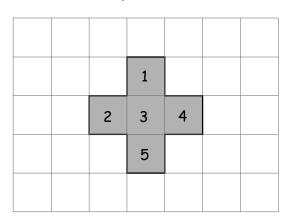

4/20 Perimeter & area by counting

• **Perimeter** is round the **OUTSIDE**Perimeter of this shape = 12cm

• Area is the number of squares INSIDE Area of this shape = $5cm^2$

4/21 Estimate measures

Capacity

a 5ml spoon

a 330ml can of drink

an average bucket holds 10 litres

4/21 Estimate measures - continued

this apple weighs 125g

this bag of sugar weighs 1kg

this man weighs 70kg

this pencil is 17cm long

length of classroom is 10m

distance to Exeter is 64miles
